HOW TO ORDER GLASS LENSES FROM SAFEVISON

Fill in & print out this orderform with your lens choice, payment info and shipping info.

Obtain a copy of your current eyeglass prescription & pupil distance measurement (important)
Your pupil distance must be on your prescription for us to make your lenses.

Mail us this orderform, your current glasses or frame only, along with the copy of your prescription.

Upon receipt of your orderform and frame, we will make your new glass lenses.

Be sure to include your phone number and email address so we can confirm receipt of your order.

Circle the price of your Glass Lens from the 13 different lens types below. Call us to discuss the best lens for you.

Total Order \$ _____

Note regarding bifocal lenses: If you mail us a pair of current bifocal lenses we will match the bifocal height. If you want bifocals but don't send us a current set of lenses, we need your **current B measurement** and **current bifocal height** on your bifocal lenses. Ask your eyeglass store for these measurements and write them down for us on your prescription. We will match the bifocal on your new frame based on this information you give us on your current frame.

Anti Glare Coating is recommended for all lenses: clear, polarized & transition. Good for night vision, water, snow, brightness, and people with high astigmatism (cylinder > 2.00) Both front & back of lenses are coated to eliminate **front & backside glare.**
